**REVENUE OVERSIGHT COMMITTEE CRITIQUE OF THE DEPARTMENT OF REVENUE**

Under the provisions of 5-18-108, MCA, the Revenue Oversight Committee is required to present a critique of the activities of the Montana Department of Revenue. The following constitutes that critique.

The Committee appreciated the continued cooperation of the Department of Revenue during the 1991-92 interim. Requests for information, including data for interim studies, were met in a reasonable and timely manner. The information and data provided for a study on all aspects of taxation in Montana and for a study on the taxation of retirement income were especially useful.

House Bill No. 53 (Chapter 13, Laws of 1989) granted the Department an additional 2 years to complete the property reappraisal cycle. During the 1989-90 interim, the Committee expressed concern that the Department would be unable to complete statewide property reappraisal by the end of 1992. The Department will complete reappraisal on time. In addition, the 1991 Legislature authorized the implementation of the Computer Assisted Mass Appraisal System (CAMAS). As a result, the Legislature also reduced the reappraisal cycle from 5 years to 3 years.

During the 1991 biennium, the Department converted the management of its liquor warehouse inventory to a bailment system. This system allows the Department to delay purchase of liquor inventory until the product is shipped to retail outlets for consumer purchase. The change in the inventory management system resulted in a one-time transfer of \$5 million to the state general fund.

A perennial issue before the Committee is the Department's role in the state control of liquor and liquor sales. The major issue confronting the Committee late in the interim was an apparent change in Department policy regarding the renewal of agency liquor store contracts. The Committee requested that the Department suspend the rebidding of agency store contracts until after the 1993 Regular Session. Following the July 1992 Special Session and a meeting with several Committee members, the Department informed the Committee that it would extend existing agency store contracts through May 1993.

After 8 years of litigation, the Department successfully defended a legal challenge by five utilities over the beneficial use tax on BPA powerlines. Over \$20 million in protested taxes has been released to affected counties and school districts. The Department also convinced the U.S. Department of Justice not to pursue litigation over the same issue.

The Legislature supported several Department initiatives to improve revenue collections. The Governor's budget recommended additional staff to perform corporation tax audits and to enhance collections from the individual income tax accounts receivable. In FY 1992, these initiatives resulted in record levels in corporation tax audit collections (over \$15 million) and in individual income tax accounts receivable collections (over \$13 million).

The Department plays an important role in the Committee's revenue estimating responsibilities. In particular, the Department provides the Legislative Fiscal Analyst with an individual income tax data base. Because the individual income tax is the most important source of revenue for the state general fund and school equalization account, the Committee encourages the Department and the Fiscal Analyst to develop procedures to ensure that the income tax data base is made available in a timely manner.

Because of time and resource limitations and other priorities, the Committee was unable to examine the Department's budget or to provide an indepth analysis of the Department's overall operations. The Committee should set a goal to examine these areas during the next interim.

The Committee looks forward to working with the Department during the next interim.

For the Revenue Oversight Committee,

Representative Bob Gilbert, Chairman

---

## STRUCTURE AND FUNCTIONS OF THE DEPARTMENT OF REVENUE

The **Director's Office (444-2460)** advises the Governor on all matters affecting the agency, recommends changes to Montana tax laws and policies, provides policy direction to all Department Divisions, and develops and presents the Department's biennial budget.

The **Office of Research and Information (444-2981)** compiles information, analyzes data using statistical methods, forecasts revenues from tax sources, provides responses to taxpayer questions, publishes major Department reports, and prepares fiscal notes for tax legislation proposals.

The **Office of Legal Affairs (444-2852)** is responsible for providing legal services to the Director's Office, all divisions of the Department of Revenue, and other areas where the Department of Revenue has an interest.

The **Office of Personnel and Training (444-2866)** is responsible for administration of the classification and pay plans, development and interpretation of personnel policies and procedures, recruitment and selection activities, training and staff development, labor negotiations and collective bargaining, grievance and appeal resolution, employee assistance, Equal Employment Opportunity (EEO), and Affirmative Action for the Department.

The **Office of Investigations (444-2846)** is responsible for investigation and enforcement of state liquor and tobacco codes, welfare and medicaid fraud statutes, and provides other investigative services as needed.

### OPERATING DIVISIONS

The Department of Revenue consists of four operating divisions which have administrative responsibility for tax laws.

The **Income and Miscellaneous Tax Division (444-2837)** administers state income and withholding tax law and over a dozen other taxes. The division has active audit, compliance and collections programs and is responsible for operating the tax withholding system. Taxes administered within this division include:

- Accommodations Tax
- Abandoned Property
- Cigarette Sales Tax
- Cigarette Wholesalers' and Retailers' License
- Consumer Counsel Tax
- Contractors' Gross Receipts Tax
- Dangerous Drug Tax
- Department of Public Service Regulation Tax
- Escheated Estates
- Emergency Telephone 911 System Fee
- Freight Line Company License Tax
- Inheritance Tax
- Individual Income Tax
- National Housing Tax
- Nursing Facility Bed Tax
- Rural Electric and Telephone Cooperative License Tax
- Telephone Company License Tax
- Tobacco Products Tax
- Withholding Tax
- Workers' Compensation Payroll Tax

The **Liquor Division (444-2540)** administers the laws governing the sale, taxation and licensing of distilled spirits, wine and beer. It also supervises the operation of the State Liquor Stores and Agencies.

The **Natural Resource and Corporation Tax Division (444-2441)** administers corporation taxes and taxes applied to natural resources. Taxes administered within this division include:

- Cement and Gypsum Producers' License Tax
- Corporation License Tax
- Corporation Income Tax
- Coal Mines Gross Proceeds Tax
- Coal Severance Tax
- Coal Retailer's License Tax
- Electrical Energy Producers' License Tax
- Federal and State Royalties
- Local Government Severance Tax
- Metalliferous Mines License Tax
- Metal Mines Gross Proceeds Tax
- Micaceous Mineral Mines License Tax
- Miscellaneous Mines Net Proceeds Tax
- Oil and Gas Net Proceeds Tax
- Oil and Gas Producers' Privilege and License Tax
- Oil and Natural Gas Severance Tax
- Resource Indemnity and Groundwater Assessment Tax

The **Property Assessment Division (443-0811)** is responsible for valuing all taxable property in the state. The program is charged with assuring uniformity among the various counties.

#### **SUPPORT DIVISIONS**

Two additional support divisions perform a variety of internal functions within the Department.

The **Centralized Services Division (444-3438)** provides many support services for the Department. These include central mail processing, cashiering, accounting, payroll and internal management review.

The **Data Processing Division (444-3149)** provides data processing and word processing services for the Department.

### Revenue Accrual Practices

Prior to the fiscal year ended June 30, 1992, with a few exceptions, receivables were entered in receivable systems and, hence, the Statewide Budget and Accounting System (SBAS) only when a document existed that showed a specific liability due the state. Most of these receivables were, therefore, delinquent when recorded as a receivable. Most receivables are recorded in the department-wide receivable system known as the Delinquent Accounts Receivable System (DAR.)

Beginning with the fiscal year ended June 30, 1992, the Department of Revenue began accruing, in addition to the delinquent accounts from DAR, all tax and fee revenues that are due on June 30 of each year and which are reasonably expected to be collected within sixty days following the fiscal year end. The actual due date is considered to be the last date of a reporting period for which a tax is due because all events creating the liability have occurred at that point. The administrative time allowed to file returns and make payments which may vary from 15 days to 1 year will not delay recognition of the revenue which would normally be collected within the sixty days following the close of the fiscal year. Money collected within sixty days of a fiscal year end is generally considered to be available to pay expenses of that fiscal year.

Since specific information on amounts owed to the state in the instance of self assessed taxes is not available until returns have been filed, the accrual at June 30 of each fiscal year for each applicable tax or fee is estimated. The estimates of revenues are based on July and August cash flows and, therefore, need no allowance for uncollectibility or calculation of deferred revenue portion.

Unless stated otherwise, all revenues in this publication include the following accruals for FY 92:

Accommodations Tax	\$ 1,643,948
Beer Tax	284,300
Cement & Gypsum Taxes and Licenses	30,000
Coal Severance Tax	10,680,000
Contractor's Gross Receipts Tax	90,000
Electrical Energy Producers' License Tax	809,000
Emergency Telephone 911 System Tax	240,000
Income Tax - Withheld	37,475,000
Income Tax - All Other	(7,660,463)
Micaceous Mineral Mines License Tax	0
Natural Gas Severance Tax	283,000
Nursing Facility Bed Tax	400,000
Oil and Gas Producers' Privilege and License Tax	90,000
Oil Severance Tax	4,256,000
Telephone License Tax	1,019,000
Tobacco Products Tax	70,000
Wine Tax - Distributors	62,725
Workers' Compensation Payroll Tax	2,263,676
<b>Total Accruals</b>	<b>\$ 52,036,186</b>

Since FY 92 is the first year including accruals in SBAS, there will appear to be a one-time increase in revenues for the above taxes, when in fact the increase is due to the changeover in accounting systems. Note that any production figures tie to **revenue net of accruals**.

## II. INCOME TAX

The income tax is Montana's largest source of state tax revenue. It is collected at rates ranging from 2% to 11% of taxable income. Revenue from the income tax was distributed 50% to the state General Fund, 41.3% to the School Foundation Program, and 8.7% to the debt service account for long-range building in FY 91; and 62.8% to the state General Fund, 28.5% to the School Foundation Program, and 8.7% to the debt service account for long-range building in FY 92.

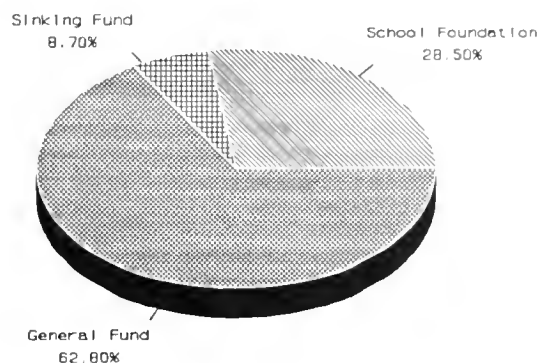

Employers who withhold wages for federal tax purposes generally must withhold for Montana income tax. In tax year 1991, wages were withheld on 309,126 returns.

### Recent Legislation

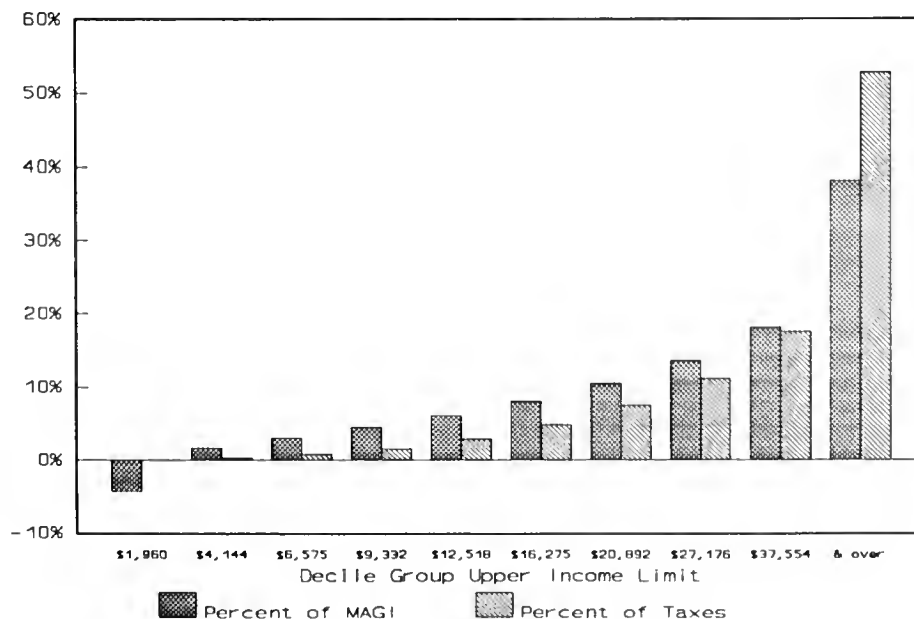

HB959 (1991 regular session), effective tax year 1992, requires individuals to pay 95% of the current year's, or 100% of the prior year's, tax liability to be eligible for an extension of time for filing a return. HB14 (1992 special session), effective tax year 1993, requires individuals not subject to withholding to make quarterly estimated tax payments.

## Indexation

Since 1981, Montana's income tax has been **indexed** to changes in the Consumer Price Index (CPI). The personal exemption, standard deduction, and tax brackets are adjusted annually in response to inflation. The effect of indexing on the income tax paid by an "average" individual and family is shown below:

## INDIVIDUAL\*\*\*

Tax Year	Gross Income**	Tax Under Indexation	Tax Without Indexation
1991	\$19,800	\$775	\$1,125
1992	20,400	798	1,179

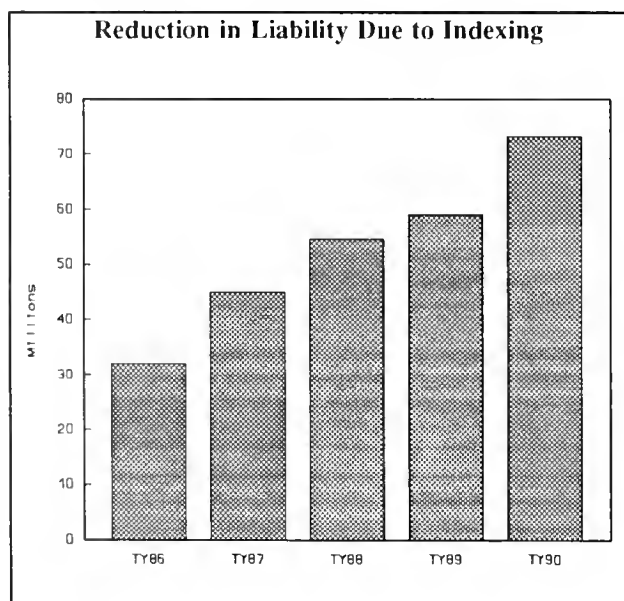

## FAMILY OF 4\*

Tax Year	Gross Income**	Tax Under Indexation	Tax Without Indexation
1991	\$41,300	\$1,387	\$ 1,921
1992	42,600	1,430	2,012

\* Deductions assumed to be 30% of gross income

\*\* Gross income is assumed to grow at same rate as CPI

\*\*\* Claiming standard deduction

Montana began indexing its individual income tax in tax year 1981 to provide taxpayers protection against tax increases that arise purely as a consequence of inflation. Over the period 1981-1990, indexing has reduced individual income tax liabilities a total of \$364.7 million.

Tax Year	Reduction in Tax Liability Due to Indexing
1986	\$31,937,000
1987	\$44,928,000
1988	\$54,592,000
1989	\$59,089,000
1990	\$73,141,000

## Provisions for Elderly and Retired Taxpayers

### Retirement Income Exclusions

The U.S. Supreme Court ruling in *Davis vs. Michigan Department of Treasury* required states to provide equal tax treatment of federal and state/local retirement benefits. The Department of Revenue administratively equalized the treatment of benefits for these taxpayers by allowing a full exclusion of retirement benefits in tax years 1989 and 1990. The Montana Legislature addressed this issue in SB226 (1991). That bill provided for a uniform exclusion of up to \$3,600 for all retirees, with the exclusion to be phased out by \$2 for every \$1 that the taxpayer's federal adjusted gross income (FAGI) exceeds \$30,000. (The retirement income exclusion becomes zero for retirees with FAGI in excess of \$31,800.)

The following table and chart show the allowable retirement exclusions by retiree group, and the total benefits excluded from taxation for tax years 1987 - 1991.

Tax Year	-----Benefit Exclusion Levels-----			Taxable Retirement Included in FAGI	Total Retirement Excluded from MAGI
	State/Local	Federal	Private		
1987	All	\$3,600	\$3,600	\$386,180,000	\$175,930,000
1988	All	\$3,600	\$3,600	\$468,479,000	\$198,823,000
1989	All	All	\$3,600	\$495,609,000	\$328,213,000
1990	All	All	\$3,600	\$567,846,000	\$346,760,000
1991	\$3,600 Max	\$3,600 Max	\$3,600 Max	\$625,363,000	\$146,439,000

### Elderly Interest Exclusion

Taxpayers age 65 or older, and filing single, separately, or head of household, may exclude up to \$800 of interest income. Taxpayers filing jointly may exclude up to \$1,600 of interest income provided that one of the taxpayers is age 65 or older.

### Elderly Homeowner/Renter Credit

Taxpayers age 62 and older may claim an income tax credit for all or a portion of the property tax, or rental equivalent, paid on their principal dwelling. The credit varies with income levels, but in no case may exceed \$400. The following table shows the number of credits claimed, total amount of the credit, and the average credit for tax years 1986 - 1990.

Tax Year	No. of Credits	Total Credits	Average Credit

DARE Program	NA	NA	NA	NA	18,517

### Accounts Receivable

Income tax and withholding delinquencies continue to grow in FY 92. The growth in these unpaid taxes is not unexpected and is consistent with growth in the state tax base and stepped-up examination and compliance activities. Montana's trends parallel our neighboring states' and the IRS' experience.

### III. NONRENEWABLE NATURAL RESOURCE TAXATION

#### A. STATE SEVERANCE AND LICENSE TAXES

##### Coal Severance Tax

The coal severance tax applies to the value of coal F.O.B. (free-on-board) the mine less deductions for the coal severance tax, coal gross proceeds tax, resource indemnity and groundwater assessment tax, federal black lung tax, federal reclamation fee, government and tribal royalties, and processing allowances.

Producers of over 50,000 tons of coal per year pay a quarterly tax on all production in excess of 20,000 tons. Producers of less than 50,000 tons per year are exempt from the tax. Legislation enacted in 1987 gradually lowered the maximum tax rate from 30% to 15%. In FY 92, surface mined coal is taxed at 15% if rated 7,000 BTU per pound and over and taxed at 10% if rated under 7,000 BTU per pound. Coal mined underground is taxed at 4% if rated 7,000 BTU per pound and over, and is taxed at 3% if rated under 7,000 BTU per pound.

### Coal Severance Tax Distribution

**\*\* Note: Accruals (see page 5) are allocated based on FY 93 distributions.**

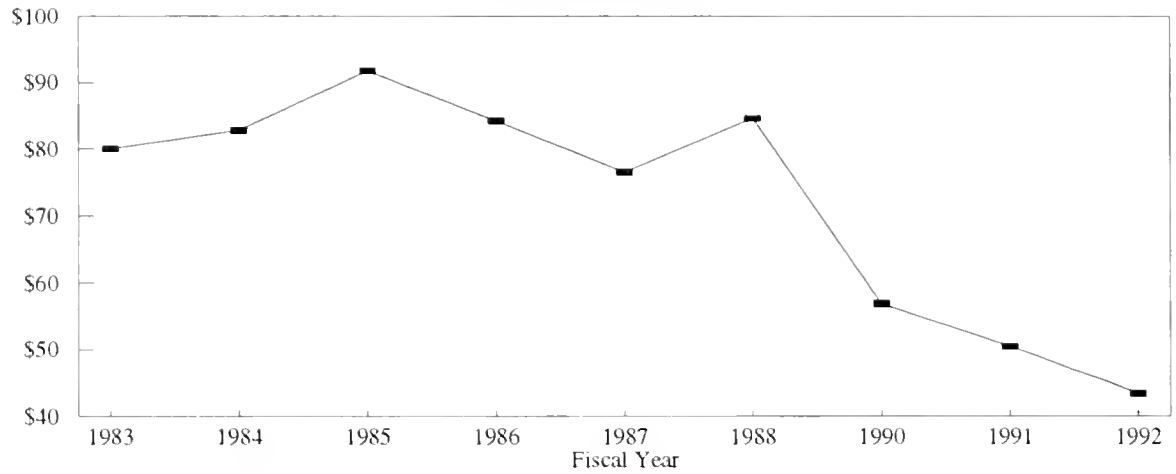

Of the total coal severance tax collections, 50% is placed in the permanent trust fund. The year-end principal and interest earnings for the trust is shown below. Interest from the trust is distributed for Fiscal Year 1992 as follows:

**Oil Severance Tax (State)**

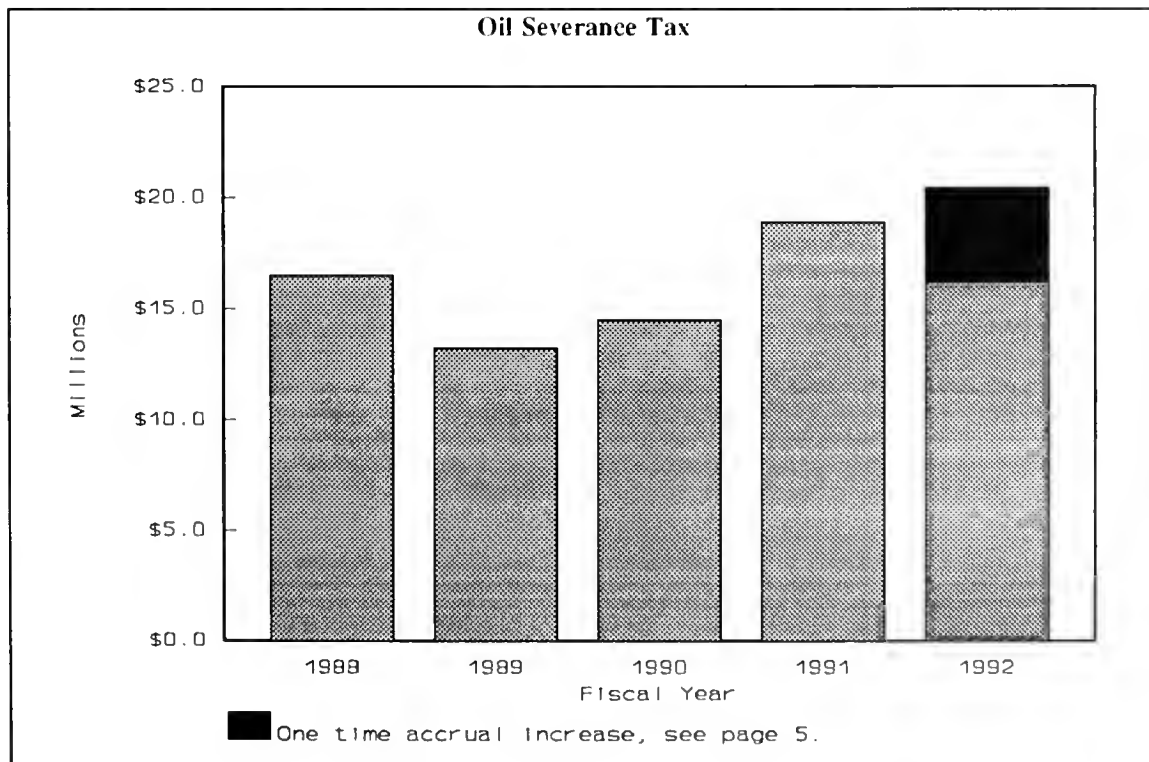

Petroleum, mineral or crude oil extracted within the state is subject to a severance tax of 5% of gross value. The gross value of the oil is determined by multiplying the total number of barrels produced each month by the average value at the mouth of the well. Government and allotted tribal royalties are exempt from the tax. 100% of the revenue from the oil severance tax is deposited in the state general fund. Previous tax incentives that applied to oil stripper wells and new production were terminated when oil prices reached contingency levels in August, 1990. Consequently, the distinction between stripper and new production is no longer relevant for net tax revenue figures.

\*\* FY 92 total includes \$4,256,000 in accruals, see page 5.

**Natural Gas Severance Tax (State)**

Natural gas extracted in Montana is subject to a severance tax of 2.65% of total gross value. Gross value of natural gas is determined by multiplying the total number of cubic feet produced each month by the average value at the mouth of the well. Government and allotted tribal royalties are exempt from the tax.

House Bill 776, enacted by the 1987 Legislature, designated a "stripper" well as a well which averaged less than 60 MCF (thousand cubic feet) per day during the last production year. For stripper wells, HB776 exempted from severance tax the first 30 MCF per day, and taxes the volume between 30 MCF and 60 MCF at 1.59% of gross value. 100% of the revenue from the natural gas severance tax is deposited in the state general fund.

\*\*\* FY 92 total includes \$283,000 in accruals, see page 5.

**Resource Indemnity and Groundwater Assessment Tax (RIGWAT)**

All producers of nonrenewable resources are required to pay a resource indemnity tax of \$25 plus 0.5% of the gross value in excess of \$5,000 of the resource produced. The tax collections are deposited in a trust fund to protect the state against loss or damage to the environment. The interest from the trust is used to develop Montana's water resources and to fund other projects to improve the environment.

**Metalliferous Mines License Tax**

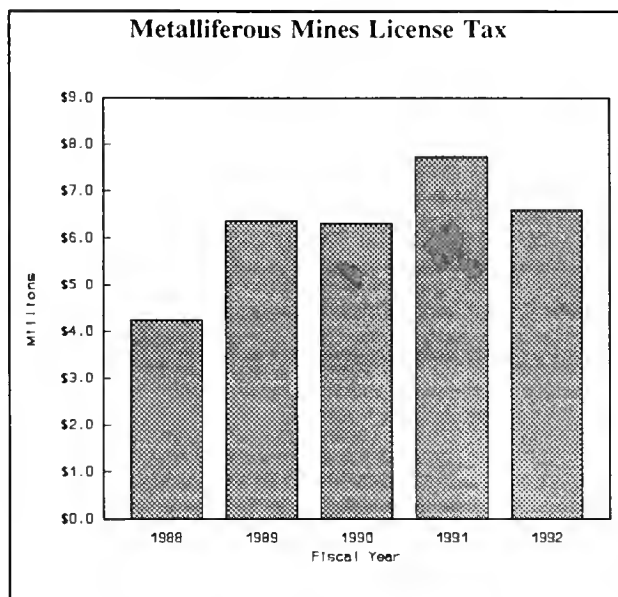

Mining operations in which metal or gems are extracted are subject to a license tax which is based on the gross value of the product. The following rates became effective for taxable years beginning after December 31, 1988.

(1) Concentrate shipped to a smelter, mill, or reduction work:

Gross Value	Tax rate (% of Gross Value)
First \$250,000	0 %
More than \$250,000	1.81% of the increment over \$ 250,000

(2) Gold, silver, or any platinum-group metal that is dore, bullion, or matte that is shipped to a refinery:

Gross Value	Tax rate (% of Gross Value)
First \$250,000	0 %
More than \$250,000	1.6% of the increment over \$ 250,000

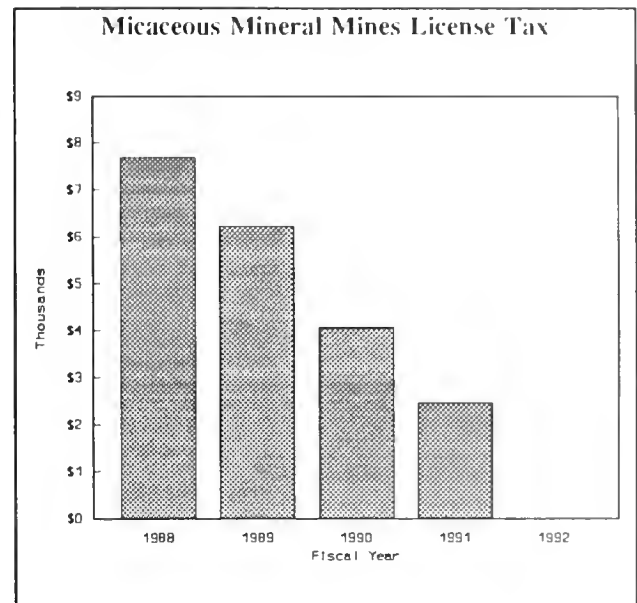

**Distribution**

Beginning July 1, 1989, 58% is deposited in the General Fund, 1.5% in the Hard-Rock Mining Impact Account for assisting local government units affected by mining, 15.5% to the State Resource Indemnity Trust Fund, and 25% to the county or counties identified as experiencing fiscal and economic impacts under an impact plan. If no such plan has been prepared, 25% to the county in which the mine is located.

**Oil and Gas Producers' Privilege and License Tax**

Oil and gas producers pay a quarterly tax not over 2/10 of 1% of the market value of all oil and natural gas produced, stored or marketed within the state or exported from the state. The tax collections fund the operations of the Board of Oil and Gas Conservation. The Board adjusts the tax rate to collect the revenue necessary to fund its appropriated budget. The current rate is 2/10 of 1%.

**B. PROPERTY TAXES ON NONRENEWABLE NATURAL RESOURCES**

All of the revenue from the following natural resource property taxes is distributed in essentially the same manner as other property tax revenue. The majority of this revenue goes to our school systems and county governments.

**Local Government Severance Tax - Oil**

House Bill 28 (HB28), enacted in the 1989 special session of the Legislature provided that all oil wells which began production prior to July 1, 1985 be subject to uniform rates of taxation. The tax rate for regular oil production is 8.4% of the gross value of production. Wells which produce less than ten barrels per day are designated "stripper" wells and are taxed at 5.0% of total gross value. Incremental production from tertiary recovery projects is also taxed at the lower 5.0% rate. Finally, persons holding a non-working (royalty) interest in the well are taxed at 12.5% of the gross value of cash paid, or production apportioned in-kind.

**Local Government Severance Tax - Natural Gas**

The Local Government Severance Tax on natural gas (also established by HB28) applies to production from wells which began producing before July 1, 1985. The tax rate for regular natural gas production and for persons holding a non-working (royalty) interest is 15.25% of gross value. Wells which produce less than 60 MCF per day are designated "stripper" wells and are taxed at 10.0% of gross value.

**Oil Net Proceeds Tax**

Prior to the 1985 legislative session, oil net proceeds was subject to local mill levies. Legislation passed during the 1985 regular session (SB390) fixed the tax rate on "new" oil production at a rate of 7% of gross value. "New" production is defined as oil from any well that has not produced during the previous five years. In addition, SB383 passed by the 1987 Legislature provided for an exemption for new production from net proceeds tax for 12 months.

**Natural Gas Net Proceeds Tax**

Prior to the 1985 legislative session, natural gas net proceeds was subject to local mill levies. Legislation passed during the 1985 regular session (SB390) fixed the tax rate on "new" gas production at a rate of 12% of gross value. "New" production is defined as natural gas from any well that has not produced during the previous five years. In addition, SB383 passed by the 1987 Legislature provided for an exemption for new production from net proceeds tax for 12 months.

*Note: Any interests that are owned by federal, state, county, or municipal governments are exempt from taxation. Royalties received by an Indian tribe with respect to on-reservation oil and gas production pursuant to a lease entered into under the Indian Mineral Leasing Act of 1938 (25 U.S.C. 3969-3969 (1983)) are exempt from taxation.*

**Coal Gross Proceeds Tax**

Before 1989, the coal gross proceeds tax was determined by calculating a taxable value of the coal (45% of gross proceeds) and then applying the mill levies of all applicable taxing jurisdictions. Legislation passed during the 1989 special session established a statewide 5% flat tax on coal gross proceeds. The gross proceeds of coal are determined by multiplying the number of tons produced times the contract sales price.

\* One-half of the contract sales price of coal sold by a coal producer who extracts less than 50,000 tons of coal in a calendar year is exempt from taxation.

\*\* The taxes assessed are subject to redistribution among the coal producing counties based on Title 15, Chapter 23, Part 7.

**Metal Mines Gross Proceeds Tax**

For property tax purposes, metal mines are valued on their gross proceeds with no deductions allowed for extraction costs. Total gross proceeds means the monetary payment or value of the refined metal received by the mining company from the metal trader, smelter, roaster or refinery. The taxable value of metal mines is equal to 3% of annual gross proceeds. This amount is then subject to local mill levies in the jurisdictions in which the taxable value of the mining operation is allocated. Metal mines that produce less than 20,000 tons of ore in a year are exempt from property taxation on one-half of the merchantable value.

**Miscellaneous Mines Net Proceeds Tax**

Miners of gems, vermiculite, bentonite, talc, limerick, gypsum, phosphate, silica, chlorite, and any other mineral except coal, travertine, building stone, and metals must file the miscellaneous mines tax. For property tax purposes, the taxable value is equal to 100% of the annual net proceeds. Net proceeds are determined by subtracting from the gross yield or value, specific costs allowed by statute, except for talc and vermiculite. For talc and vermiculite the gross yield or value is arrived at by multiplying the number of tons extracted, produced, and treated or sold by a specific price calculated each year by statute. This value becomes the net proceeds for these two minerals. The net proceeds or taxable value amounts are then subject to local mill levies in the jurisdictions in which the mining operation is located.

## IV. CORPORATION TAXES

### Corporate License and Income Taxes

Most corporations engaged in business for financial gain in Montana are subject to a corporate license tax. A small number of corporations are subject to Montana's corporate **income** tax, rather than the corporate license tax, because of the limited scope of their activity in the state.

Many non-profit educational, fraternal, religious and marketing cooperative associations are exempt from paying the tax. However, any unrelated business income earned by an exempt corporation is taxable if it results in a federal tax liability of more than \$100.

Corporations that have sales not exceeding \$100,000 in Montana and are domiciled elsewhere and do not own or rent real property within the state may elect to pay an alternate tax of .5% of gross sales made in Montana. Few corporations choose this alternative.

Banks and savings and loan associations are treated, for corporate tax purposes, similarly to other corporations, but 80% of the tax they pay is returned to the counties in which the bank or savings and loan association is located. This allocation was designed to reimburse local governments for revenue lost when the property tax on bank shares was repealed in 1979.

Montana's corporate tax rate is 6 3/4% of net income (gross income minus allowable deductions) or \$50, whichever is greater. Gross income is the same as for federal corporate taxes. For corporations electing water's edge filing methods, the tax rate is 7% of net income.

Allowable deductions include all ordinary and necessary business expenses, certain losses and depreciation of assets, resource depletion allowance, interest paid on business debts, taxes paid (except all taxes measured by net income or profits), certain charitable contributions, certain energy-related investments, and net operating losses.

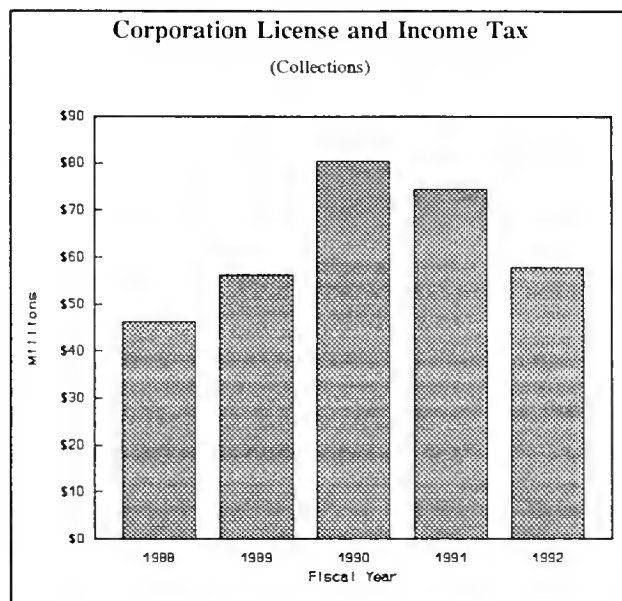

Under Montana law, corporations are allowed to reduce corporate tax liability by claiming certain credits. The reductions allowed are contractor's gross receipt tax credit, new industry credit, interest differential credit for low interest energy loans, Montana Capital Company credit, and credit for dependent care assistance.

Revenues collected from corporations other than financial institutions are deposited as follows:

	<b>FY 91</b>	<b>FY 92</b>

\* HB56, passed during the June, 1989 Special Legislative Session, accelerated corporate tax payments by requiring quarterly, rather than annual, payments for corporations having a tax liability of \$5,000 or more. This "one-time" acceleration increased revenues in FY 90 and in FY 91.

## V. OTHER TAXES

### Cement and Gypsum Taxes and Licenses

Producers and importers of cement and cement products are required to pay a license tax of \$0.22 per ton. Producers and importers are required to pay \$0.05 per ton for gypsum and gypsum products. Individuals retailing cement and gypsum products in Montana must pay a license tax of \$0.22 and \$0.05 respectively for every ton that has not been paid for under any other law. All cement and gypsum collections are deposited in the General Fund.

### Telephone Company License Tax

Prior to July 1, 1991, all **gross income**, in excess of \$250 per quarter, derived from any telephone business (including the transmission of messages over telephone lines or microwave electronic equipment) in Montana was subject to a license tax of 1.725%. For tax quarters beginning after June 30, 1991, **gross revenue**, in excess of \$250 per quarter, is subject to a license tax of 1.8%. Gross revenue does not include carrier access revenue; revenue from certain sales of telephone services; revenue from equipment sales, leases, repairs, installations and maintenance; and customer access line charges assessed under Federal Communications Commission orders or rules. License taxes collected are deposited in the General Fund.

### Freight Line Company Tax

Freight line operations in Montana are subject to a tax of 5 1/2% of total gross earnings derived from business in the state. Freight line company license tax collections are deposited in the General Fund.

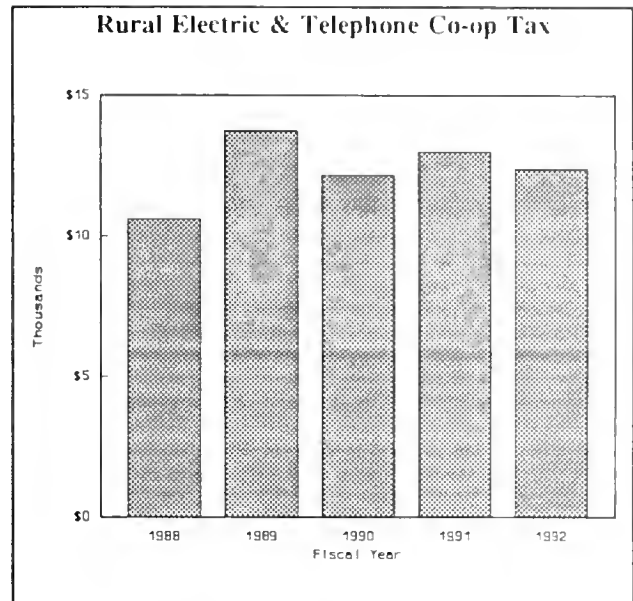

The July 1992 Special Session of the Legislature repealed this tax retroactive to January 1, 1991. Taxpayers were given an option of receiving a credit towards their property tax or receiving a refund. The amount refunded totals \$806,904. The total tax paid shown below for FY 92 was the balance prior to these refunds.

	Number of Accounts	Total Gross Income	Total tax paid (including penalty and interest)
FY 88	16	22,463,447	\$1,229,618
FY 89	13	20,420,756	\$1,125,739
FY 90	14	21,261,368	\$1,166,312
FY 91	20	23,539,896	\$1,297,794
FY 92	26	23,133,092	\$1,272,134

**Rural Electric and Telephone Co-op Tax**

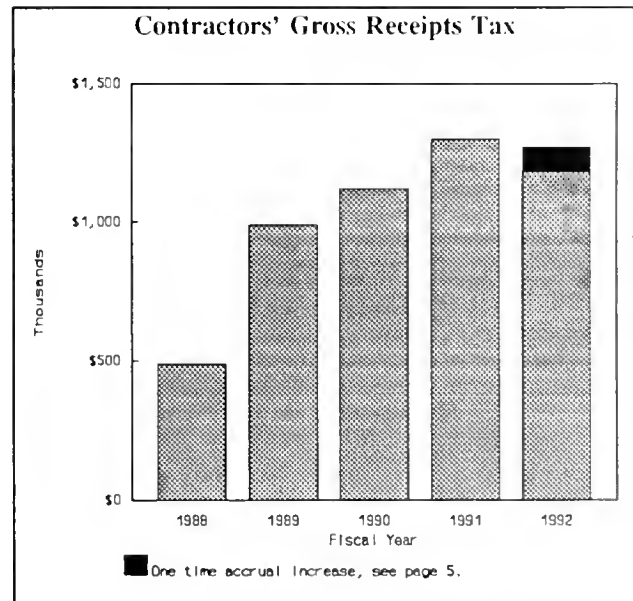

Electric and telephone cooperatives are subject to a license tax of \$10 for every 100 people they serve within the state. They are exempt from all other excise or income taxes. Collections are deposited in the state's General Fund.

	FY 88	FY 89	FY 90	FY 91	FY 92

Total tax paid (including penalty and interest)	\$10,597	\$13,723	\$12,127	\$12,980	\$12,364

**Public Contractors' Gross Receipts Tax**

Prime contractors and all levels of subcontractors must pay a tax amounting to 1 percent of all public contracts over \$5,000. Contractors can obtain part or all of the tax back by requesting refunds for personal property taxes paid on assets used in their contracting business and by claiming credit on their individual Montana income tax return or Montana Corporation License Tax return. Revenues are deposited to the credit of the General Fund.

**Consumer Counsel Tax**

All companies providing services which are regulated by the Public Service Commission are subject to a quarterly Consumer Counsel Tax on gross operating revenue. The tax rate is set annually for the succeeding fiscal year to cover appropriations to the office of the consumer counsel. All collections are deposited in an Earmarked Revenue Fund.

### Dangerous Drug Tax

A tax is imposed on the possession and storage of dangerous drugs. This tax is 10% of the assessed market value of the drugs or a specified rate, whichever is greater. In addition, a 5% charge is imposed to offset the costs of administration. The Department of Revenue allocates 33% of Drug Tax collections to the Department of Family Services for youth evaluation and chemical abuse programs. Of the remaining revenues, 50% goes to the Department of Justice to be used for grants to youth court chemical abuse assessments and the detention of youth offenders, and 50% goes to local law enforcement involved in the seizure.

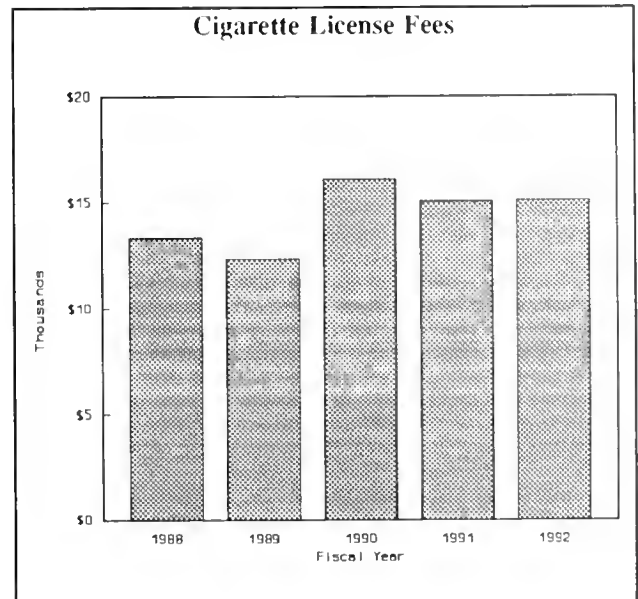

### Dangerous Drug Tax Collections

FY 88	FY 89	FY 90	FY 91	FY 92
\$46,768	\$14,071	(\$29,860)	(\$10)	\$0

### Cigarette Wholesalers' and Retailers' Licenses

A license fee is imposed on cigarette dealers in Montana. Wholesalers, subjobbers and vendors (possessing 10 or more machines) pay an annual license fee of \$50. Retailers and vendors (possessing 9 or less machines) pay an annual license fee of \$5.

	Number of licenses	Total fees paid
FY 88	2,154	\$13,325
FY 89	1,760	\$12,317
FY 90	2,128	\$16,095
FY 91	2,082	\$15,060
FY 92	2,057	\$15,095

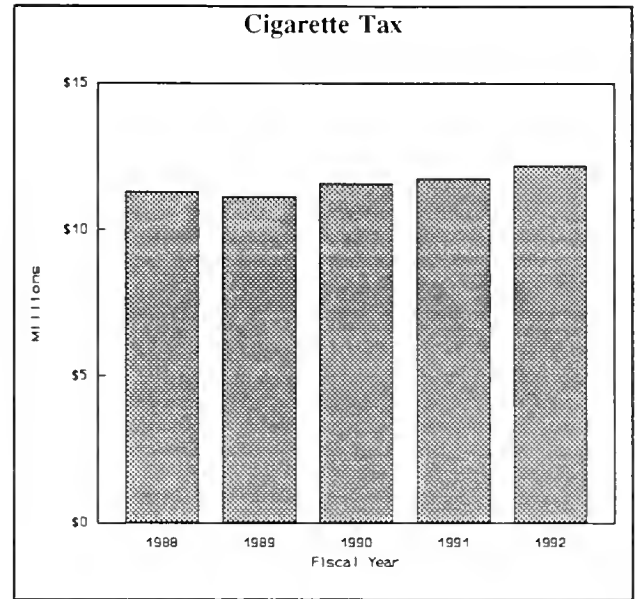

### Cigarette Sales Tax

Cigarette wholesalers in the state precollect a tax of 18¢ per package of 20 cigarettes. The tax is then included in the retail price of the cigarettes. A tax insignia must be affixed to each package by the distributor or dealer. Wholesalers and dealers are entitled to purchase insignias at face value less the following percentages which are allowed to defray costs of affixing insignias and pre-collecting the tax on behalf of the State of Montana:

- 1) 6% for up to 2,580 cartons purchased in any calendar month;
- 2) 4% for any portion of the next 2,580 cartons purchased in any calendar month; and
- 3) 3% for purchases in excess of 5,160 cartons in any calendar month.

All money collected from the Cigarette Sales Tax is deposited in the Long-Range Building Program Fund; 70.89% to the Debt Service Fund Type and 29.11% to the Capital Projects Fund Type.

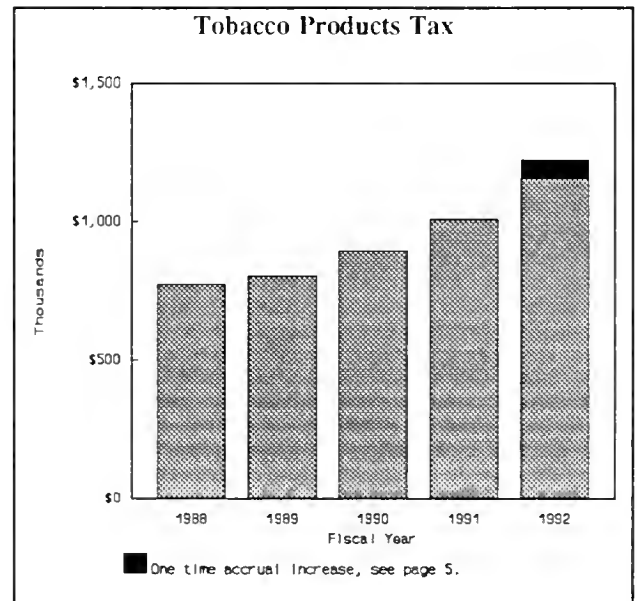

### Cigarette Sales Tax Collections

### Tobacco Products Tax

All tobacco products, excluding cigarettes, are subject to a tax of 12 1/2% of their wholesale price. The tax is collected from the wholesaler less a 5% defrayment for collection and administrative expenses. Collections are deposited in the Long-Range Building Program Debt Service Fund.

### Tobacco Products Tax Collections

\* FY 92 total includes \$70,000 in accruals, see page 5.

### National Housing Tax

The Department of Revenue is authorized to request payments in lieu of taxes, from the United States, for providing services for federal projects. The amount of payment is based on the estimated cost to the state of providing the services. All payments received are deposited in the University Millage Special Revenue Account.

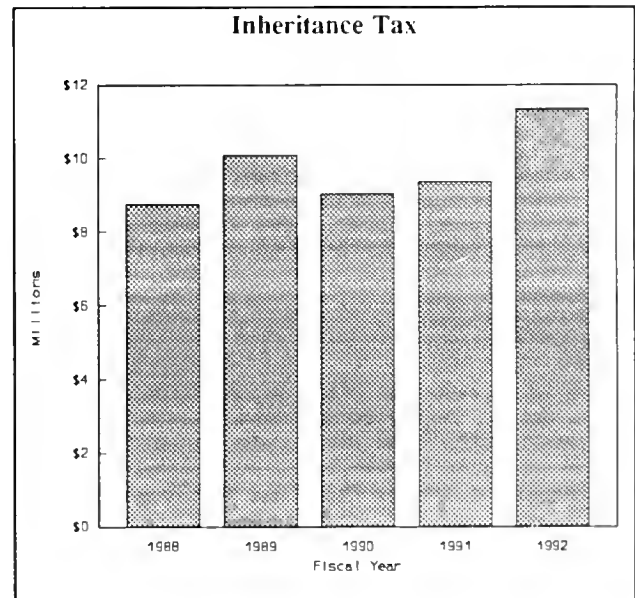

### National Housing Tax

FY 88	FY 89	FY 90	FY 91	FY 92
\$184	\$170	\$153	\$0	\$3,469

### Inheritance Tax

An inheritance or succession tax is paid by the recipient of any decedent's property or interest within Montana. Surviving spouses and children are 100% exempt from the tax (effective 1/1/79 and 1/1/81 respectively). The Inheritance Tax applies to non-residents if the transferred property is real and is located in Montana. Rates of taxation range from 2% to 8% of the clear market value if the inheritance is under \$25,000. The rate depends on the relationship of the beneficiary to the decedent. Tax rates are higher on amounts transferred in excess of \$25,000.

In addition to the inheritance tax, an estate tax is imposed upon the transfer of any estate subject to federal estate tax. The estate tax is equal in amount to the maximum tax credit allowable for state death taxes against the federal estate tax less any inheritance tax paid. Proceeds collected under the inheritance tax are deposited in the General Fund.

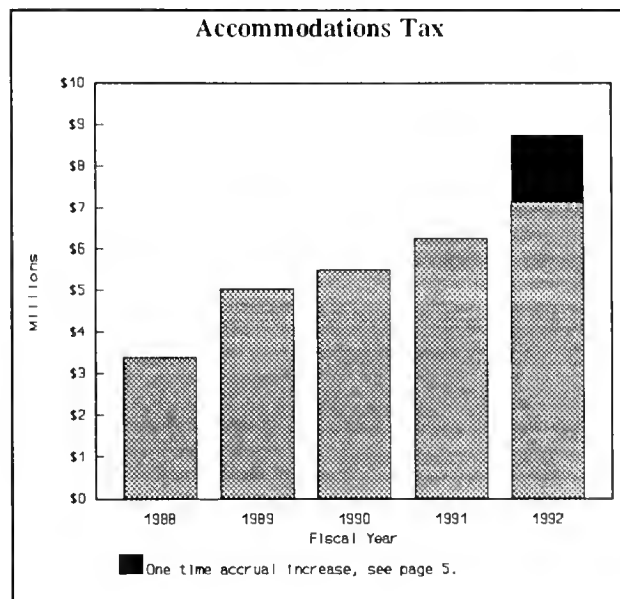

### Total Inheritance Taxes Paid

FY 88	FY 89	FY 90	FY 91	FY 92
\$8,745,457	\$10,091,548	\$9,049,129	\$9,339,854	\$11,338,204

### Accommodations Tax

A tax is imposed on users of overnight lodging facilities. This tax is 4% of the accommodation charge and is collected by the owner or operator of the facility. The tax went into effect July 1, 1987.

Net collections (after administrative costs are paid) from the Accommodation Tax are transferred to a special revenue fund for state and tourism promotion. The monies are then distributed as follows: 1% goes to the Montana historical society, 2.5% goes to the university system for the Montana travel research program. Of the balance, 75% goes to the Department of Commerce for its direct use and the rest goes to various regional nonprofit tourism corporations unless that particular city-county area collects in excess of \$140,000 in proceeds annually. In this instance, half of the amount available for distribution to the nonprofit tourism corporation would instead go to a nonprofit convention and visitors bureau in that city-county region.

### Accommodations Tax

FY 88	FY 89	FY 90	FY 91	FY 92*
\$3,372,658	\$5,017,693	\$5,488,764	\$6,237,422	\$8,762,356

\* FY 92 total includes \$1,643,948 in accruals, see page 5.

### Nursing Facility Bed Tax

Nursing facilities in the state pay a utilization fee of \$1 for each bed day in the facility for FY 92. Beginning in FY 93 this rate increases to \$2 for each bed day. Days paid for by the resident, friend of the resident, or family member of the resident are exempt from the fee. Other exemptions apply as well. All revenue from this fee goes to the general fund. The collections for FY 92 were \$1,587,432 and included a one time accrual increase of \$400,000 (see page 5.) The tax became effective July 1, 1991.

### Workers' Compensation Payroll Tax

An employer must pay a 0.28% tax on his/her workers' compensation covered payroll. This is paid in addition to regular workers' compensation insurance premiums. The revenue from this tax goes to a workers' compensation tax account in the state special revenue fund for bond repayment. Any surplus must be used to reduce the unfunded liability in the state fund incurred for claims for injuries that occurred prior to July 1, 1990. Collections for FY 92 were \$14,067,435 and included a one-time accrual increase of \$2,263,676 (see page 5.)

### Statewide Emergency Telephone 911 System Fee

A fee of 25 cents a month per access line on each service subscriber in the state is imposed on the amount charged for telephone exchange access services. Services that the state is prohibited from taxing and coin operated public telephones are exempt from this fee. The revenue from this fee is deposited in a special revenue fund for the development of emergency 9-1-1 systems in the state.

**Repealed and Transferred Taxes**

**Store License** - was repealed effective December 31, 1991. Collections for FY 91 were \$314,051 and for FY 92 were \$5,054.

**Camper Certificate** - was transferred to county treasurers after September 30, 1991. Collections for FY 91 were \$4,812 and for FY 92 were \$1,905.

**Tramway Gross Receipts** - were transferred to the Department of Commerce after July 1, 1991. FY 91 collections were \$34,164 and for FY 92 were \$35,341.

**Retail Coal Dealers License Tax** - was repealed with an applicability date of Jan 1, 1991. Collections for FY 91 were \$9.

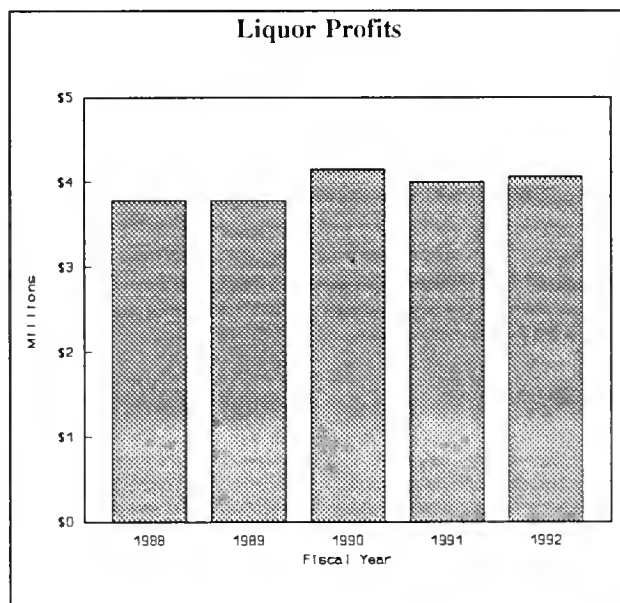

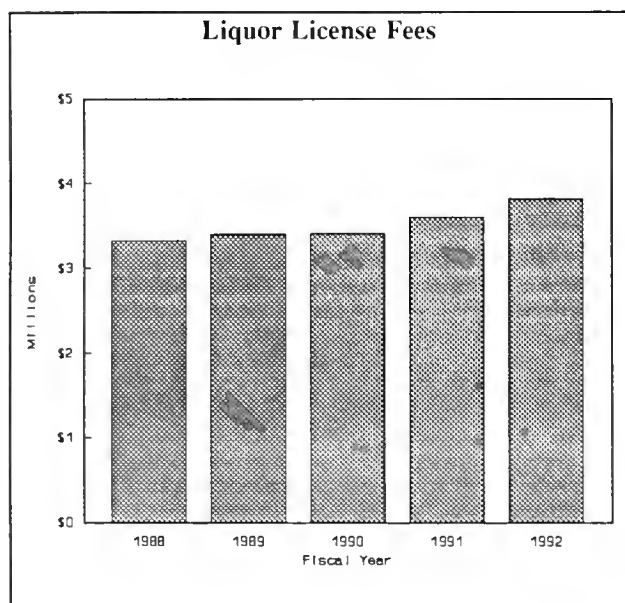

**Motor Fuels Taxation** - was transferred to the Department of Transportation effective July 1, 1991.

**Freight Line Company Tax** - was repealed in the July 1992 special session retroactive to January 1, 1991.

## VI. LIQUOR TAXES AND PROFIT FROM STATE LIQUOR STORES

### Nontax Collections

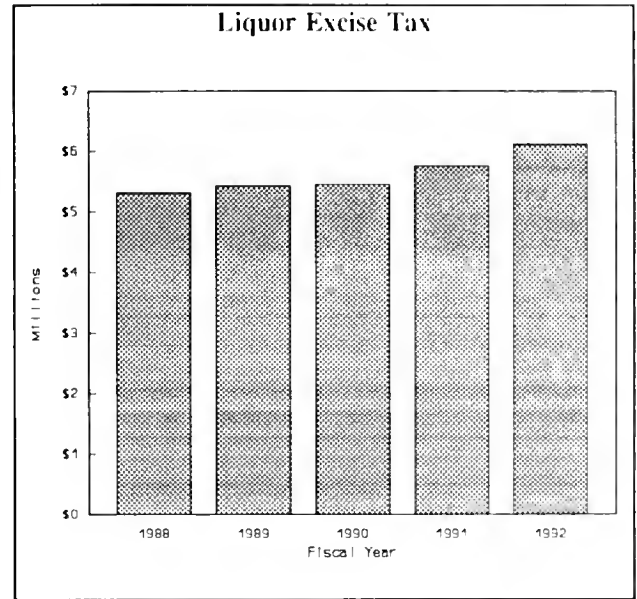

All-Beverage Licenses issued in cities of 10,000 or more population are subject to a one-time fee of \$20,000. In cities of 10,000 population or larger, an annual renewal fee of \$800 is charged. Smaller cities and towns require lower fees. The number of licenses available in any given area depends on the population. Nationally chartered veterans organizations, airlines, railroads, resorts and caterers pay specific fees different than those collected for other liquor licenses. Liquor license fees are deposited in the General Fund. Profits earned from the sale of liquor by the Department are also deposited in the General Fund. Liquor profits are determined by subtracting operating expenses, discounts and taxes from gross sales.

	FY 88	FY 89	FY 90	FY 91	FY 92
Liquor license fee collections	\$1,610,907	\$1,511,520	\$1,661,818	\$1,379,791	\$1,552,552
Liquor profits	\$3,785,922	\$3,789,483	\$4,162,346	\$4,002,685	\$4,066,047

**Liquor Excise Tax**

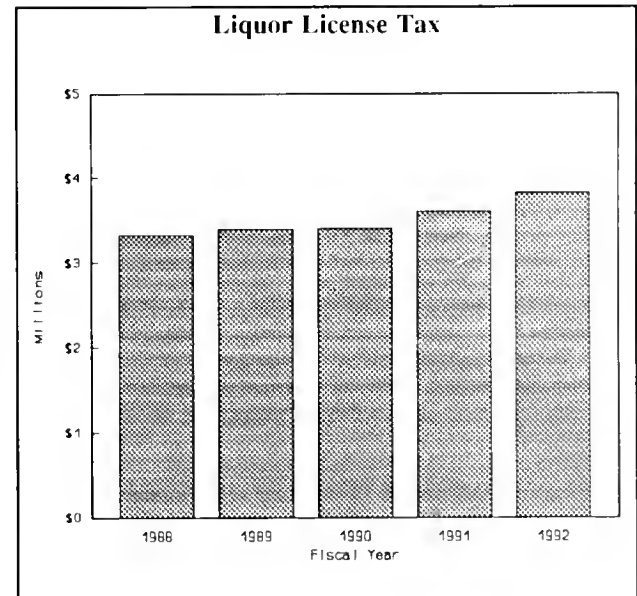

The Department of Revenue collects an excise tax of 16% of the retail selling price on all liquor sold by the state. The excise tax on products sold by companies whose annual sales do not exceed 200,000 proof gallons of liquor nationwide in the preceding year, is 13.8%. Payment of the tax must not be later than the last day of the month immediately following the close of each quarter period. Collections are deposited with the State Treasurer, to the credit of the General Fund.

**Liquor Excise Tax Collections**

FY 88	FY 89	FY 90	FY 91	FY 92
\$5,322,934	\$5,438,423	\$5,458,345	\$5,759,437	\$6,122,351

**Liquor License Tax**

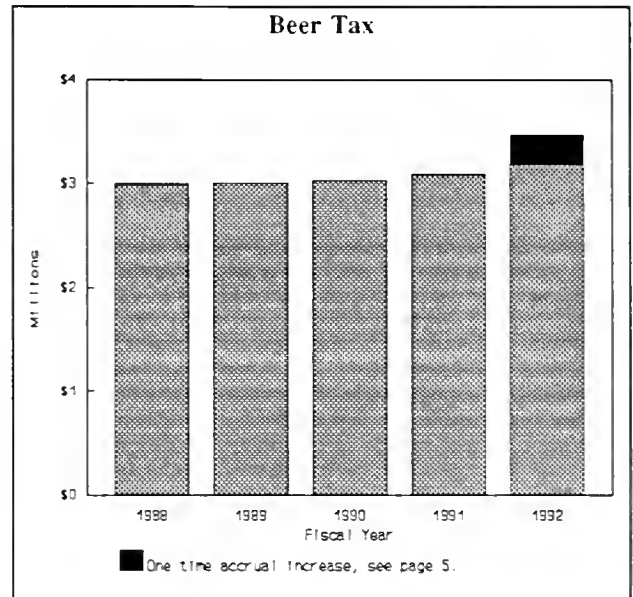

A license tax equal to 10% of the retail selling price of all liquor sold by the state is levied in Montana. The license tax is in addition to the liquor excise tax. The liquor license tax on products sold by companies whose annual sales do not exceed 200,000 proof gallons of liquor nationwide in the preceding year is 8.6%. The Department of Revenue allocates 30% of Liquor License Tax collections to county governments for distribution to incorporated cities and towns. An additional 4.5 percent is allocated to counties for county purposes. The remaining 65.5% is deposited in the State Special Revenue Fund to the credit of the Department of Corrections and Human Services for treatment, rehabilitation and prevention of alcoholism (Figure 4).

**Liquor License Tax Collections**

### Beer Tax

A monthly tax of \$4.30 per barrel of thirty-one gallons is imposed on beer sold by any Montana wholesaler. This tax applies to all beer whether brewed in this state or imported from outside. All revenue received from taxes on beer over and above \$2.80 per 31 gallons is deposited to the credit of the Incorporated Cities and Towns Beer Tax Account in the State Special Revenue Fund. All funds received by cities and towns are expended for purposes such as law enforcement, maintenance of transportation systems, and public health. One dollar collected on every 31 gallons of beer is deposited in the Special Revenue Fund to the credit of the Department of Corrections and Human Services for treatment, rehabilitation, and prevention of alcoholism. The remaining balance of revenue collections is deposited in the General Fund (Figure 5).

## VII. OTHER SERVICES

### Abandoned Property

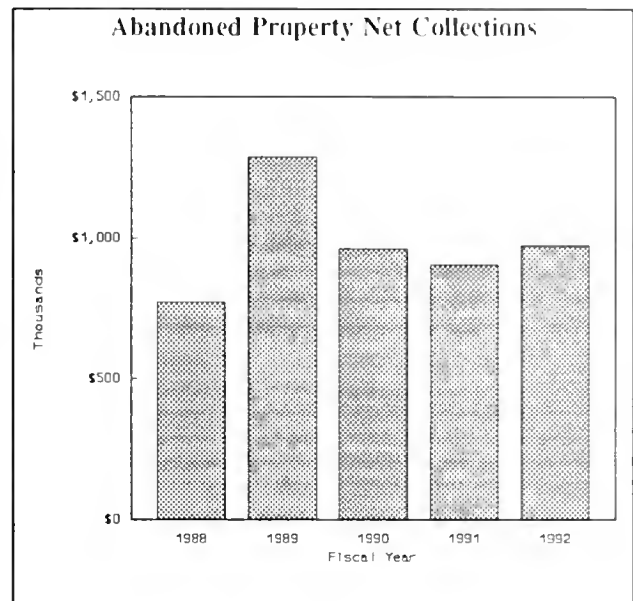

Under Montana's Unclaimed Property Act any intangible and certain tangible property, unclaimed by its owner for at least 5 years, must be turned over to the Department of Revenue. Montana is considered a "custodial state" and holds such property on behalf of the owners of lost or abandoned property.

The Department maintains records on all abandoned property reported in Montana. Reports filed by holders of abandoned property (banks and insurance companies for instance) may be examined by the public.

All collections over \$25,000 (the amount allocated to the agency refund account) are transferred to the Public School Non-Expendable Trust Fund. Interest income earned by the Trust is distributed to the state's school districts on the basis of student enrollment.

The refund period for items valued at over \$10 is unlimited. Interest and dividends earned on the property are non-refundable.

In January 1990 the Department, by contract, became affiliated with Unclaimed Property Clearinghouse of Boston, Massachusetts.

### Welfare Fraud, Medicaid Fraud and Liquor Investigations

The Investigations Program was established in 1973. It is funded through federal, liquor revolving, and general fund sources. Welfare and medicaid fraud investigations receive either a 50% or 75% federal match, depending on the type of fraud. Liquor investigation activities are designed to protect the public health, welfare, and safety and assure \$17 million in liquor system net profit and taxes.

In addition to its workload of routine investigations in support of applications for transfer or other changes of liquor licenses, the program completed special investigations involving liquor store employee theft in two locations, assisted with a large sting operation against sales to underage persons, and participated in a raid of tobacco bootlegging outlets on an Indian reservation.

During FY 1992, the program focused on those welfare fraud cases that involved the largest amounts of fraud, multiple instances of fraud, and cases involving high profile issues to encourage the highest level of media coverage and compliance enhancing impact. Routine recovery cases are processed through the administrative actions of the Department of Social and Rehabilitative Services, for which the program lends investigatory support when it has resources to do so. This practice will expand in FY 93. For budgetary reasons, the program emphasized the welfare fraud area in the fourth quarter of 1992, generating several prosecution cases that will be reflected in FY 93 statistics.

## VIII. PROPERTY TAX

### The Department's Role

Although 95% of property taxes collected are spent locally, the Property Assessment Division is responsible for insuring that all property in the state is treated fairly. The Division's duties include the appraisal, assessment, and equalization of the value of all property in the state for the purpose of taxation.

Most real estate and improvements are appraised by state employees in the appraisal office in each county. The county assessor is assigned the responsibility for appraising most personal property as an agent of the department. The rate of tax on the various classes of property and the establishment of the actual classes is a function of the Legislature.

Property that is single and continuous and is in more than one county (such as railways, telephone lines, power lines and pipelines) is centrally assessed by the Property Assessment Division. The valuation is apportioned to counties and other jurisdictions on a mileage basis or other basis judged to be "reasonable and proper."

In 1975, the legislature required the Department of Revenue to administer and supervise a program for the revaluation every five years of all taxable property within the state. In 1991, the legislature reduced future reappraisal cycles from five to three years. Revaluations (more commonly called reappraisal cycles) are designed to insure that all property is taxed on current structural and market information. Montana's second statewide reappraisal was completed in 1985. The new reappraisal values were first used for the 1986 tax year. The state's third reappraisal is scheduled to be completed by December 31, 1992.

### Calculation and Distribution of Property Taxes

Property tax liability is determined based on the assessed value of the property, the statutory taxable value rate for the class of property that it belongs to, and the mill levy in the jurisdiction in which the property is located. Property tax liability is calculated in the following way:

$$\begin{aligned}\text{Assessed Value} \times \text{Taxable Value Rate} &= \text{Taxable Value} \\ \text{Taxable Value} \times \text{Mill Levy} &= \text{Property Tax Liability}\end{aligned}$$

The statutory taxable value rate is determined by classifying the property into one of twelve property classifications.

Following is an example of a property tax liability computation for a home using the actual 1991-92 statewide average mill levy for residential property. A mill is a tenth of a cent, so a levy of 362 mills translates to \$362 per \$1,000 of taxable valuation.

Assessed value (market value)	\$	80,000
Classification (class 4 = 3.86%)	x	.0386
Taxable value	\$	3,088
Mill levy (362 mills)	x	.362
Property tax liability	\$	1,118
Average effective tax rate		1.40%

Property tax revenue is collected by county treasurers and is distributed based on relative mill levies. The Montana property tax dollar in 1991 and 1992 was distributed as follows:

	Tax Year 1991	Tax Year 1992
Schools (including 95 mills state equalization)	\$ .59	\$ .59
Counties	.18	.19
Cities and Towns	.13	.13
State *	.03	.03
Other	.07	.06

\* Note: State includes universities, state assumption of welfare, and timberland assessment.

**Summary of Significant Property Tax Changes  
Fifty-Second Legislature**

*Reappraisal, Sales/Assessment Ratio Studies*

**SB412** (1991 Regular Session) continued annual adjustments to Class 4 and Class 11 taxable valuations using sales/assessment ratio studies, through tax year 1993. This legislation also provided for appeals of individual property values stemming from sales/assessment ratio studies, and provided the criteria by which certain areas in the state would be subject to selective reappraisal. This bill also required that, future reappraisal cycles be reduced from five to three years.

**HB340** (1991 Regular Session) changed the method of valuing private forest lands from a standing inventory basis to a productivity basis similar to agricultural land. The University of Montana Forestry School is determining the productive capacity of forest lands for future implementation by the Department of Revenue. Appropriations for the productivity study and final implementation were funded through an annual assessment of \$0.10 per acre of private timberland for tax years 1991 through 1993. Reappraised values based on productivity are scheduled to become effective in tax year 1994.

**HB52** (July, 1992 Special Session) ended the annual sales/assessment ratio study adjustments after tax year 1992, and required that new appraised values for commercial and residential property stemming from the most recent comprehensive reappraisal be placed on the tax rolls in tax year 1993. In addition, the bill provided for a transitional 4-year period for the next comprehensive reappraisal cycle, before requiring future cycles to be completed every three years.

*Classification*

**SB436** (1991 Regular Session) consolidated the then existing 17 property classes into 12 classes. Property classes 12 (mobile homes), 19 (nonproductive real property), and 20 (idle agricultural and timber processing property) were moved to class 4 (residential and commercial land and improvements); classes 15 (railroads) and 17 (airlines) were combined into a single class; and property class 18 (nonproductive mining claims) was moved to class 3 (agricultural land). (See next page.)

In addition, this bill excluded the value of class 1 (net proceeds) and class 2 (gross proceeds) from the calculation of the railroad and airline taxable valuation rate.

*Other Changes*

**HB24** (July, 1992 Special Session) repealed the existing freight line company license tax, and replaced it with a retroactive property tax on private car companies. Railroad cars leased or operated by private car companies will be taxed as class 12 property (railroads and airlines). All revenue from the property tax on private car companies is deposited in the state general fund.

## Classification of Property for Purposes of Taxation

Montana law requires that all property except agricultural land and mines be assessed at 100 percent of market value.

The market value of all motor trucks, agricultural equipment, and vehicles of all kinds, is the average wholesale value (loan value in the case of agricultural machinery and equipment) shown in national appraisal guides and manuals, or the value of the vehicle before reconditioning and profit margin. Market value for most other property is the value at which property would change hands between a willing buyer and a willing seller, neither being under any compulsion to buy or to sell and both having reasonable knowledge of relevant facts.

The table below outlines Montana's 1992 property tax classifications and provides **taxable value rates** as percentages of market value:

### 1992 Classification of Taxable Property in Montana, With Taxable Value Rates as Percentages of Market Value

- Class 1:** 100% of net proceeds after deducting specified expenses  
(15-6-131 MCA) a) The annual net proceeds from sales during the taxable year by all **mines except coal and metal mines**.
- Class 2:** 3% of gross proceeds  
(15-6-132 MCA) a) The annual gross proceeds of **metal mines**.
- Class 3:** 30% of productive capacity  
(15-6-133 MCA) a) All **agricultural land**.  
b) **Nonproductive mining claims** valued as if agricultural land.
- Class 4:** 3.86% of market value  
(15-6-134 MCA) a) All **land** except that specifically included in another class.  
b) All **improvements** (including buildings) except those specifically included in another class.  
c) Trailers and **mobile homes** used as residences, except when held by a dealer or distributor as stock or specifically included in another class.  
d) All real and personal property that:  
1) is integrally related in a single working unit.  
2) is devoted exclusively to the processing of agricultural or timber products.  
3) has not been in production for 12 consecutive months or been acquired in a foreclosure or bankruptcy proceeding under specific conditions.  
3.86% of market value multiplied by a percentage figure based on income.  
e) The first \$80,000 of the market value of any improvement (including buildings) on real property and five adjoining acres, or a trailer or mobile home, and occupied for at least 10 months a year as the primary residence of any one whose total income is not more than \$10,000 (\$12,000 for a married couple).  
1.93% of market value  
f) All **golf courses**, including land and improvements, that consist of at least nine holes and not less than 3,000 lineal yards.

*\*Class 4e property is taxable at 3.86% of assessed value times the following percentage schedule based on annual income:*

Single Person adjusted gross income			Married Couple adjusted gross income			Percentage multiplier
\$ 0	to	\$1,298	\$ 0	to	\$1,557	0
1,299	to	2,595	1,558	to	3,114	10
2,596	to	3,892	3,115	to	4,671	20
3,893	to	5,190	4,672	to	6,228	30
5,191	to	6,487	6,229	to	7,785	40
6,488	to	7,785	7,786	to	9,341	50
7,786	to	9,082	9,342	to	10,898	60
9,083	to	10,379	10,899	to	12,455	70
10,380	to	11,677	12,456	to	14,012	80
11,678	to	12,974	14,013	to	15,569	90

- Class 5:** 3% of market value.  
(15-6-135 MCA)
- a) All property used and owned by **Cooperative Rural Electrical and Cooperative Rural Telephone** associations organized under the laws of Montana, except property owned by cooperative organizations referred to in Class 7c.
  - b) Air and water **pollution control equipment**.
